Woods Groundbreaker®

Backhoes Made So Well the Warranty Covers Your Tractor

Woods stands behind its backhoes, loaders and mounts with a 2-year limited warranty that includes the tractor. If your tractor manufacturer threatens to void its warranty as a result of installing one of our attachments, we'll cover the warranty if our product damages or compromises your tractor's frame integrity. We're that confident.

Compare our loader and backhoe warranty to others and you'll find that Woods stands behind its attachments like no one else.

Legend

Standard-duty

Designed and manufactured for typical usage and basic applications.

Medium-duty

Designed and manufactured for harsher usage and more robust applications.

Heavy-duty

Designed and manufactured for extended usage and the most demanding applications.

Since 1946, we've been manufacturing in Oregon, Illinois, and supporting the growth of American jobs.

Maintain the quality and performance of your Woods equipment with Woods genuine replacement parts, paint, and lubricants. Available from your authorized Woods dealer.

Find a Woods Dealer

Woods equipment is distributed through a network of authorized dealers. To find your nearest store visit us at woodsequipment.com or call 800-319-6637.

Unmatched Performance

Combine an excavator-style curved boom, a construction grade Gannon® bucket, and Woods' unique easy on/easy off mounting system, and you've got the best built backhoe in the industry. Groundbreaker® backhoes are powerful diggers that are simple to service, require no tools to attach and detach, and offer greater bucket capacity than any other bucket in its class.

- Curved boom reaches farther over objects and under obstacles with less repositioning than a straight boom
- Variety of bucket choices ensures you have the right tool for your trenching and digging jobs
- Optional thumb allows you to do more than dig... pull, pick up and move heavy objects for added versatility

Superior Construction

Welded to American Welding Society standards and tested in rigorous real-life conditions, Woods backhoes are built to handle your most challenging projects.

- Box style design adds strength with less weight, which increases lifting power
- Heavy-duty cylinders endure greater force and last longer
- Easy to service hoses and pins make maintenance a breeze
- Compatibility with most loaders and undermount mowers supports the versatility of your tractor
- Available in colors to match your tractor, and with a wide range of subframes, 4-point and 3-point mounts

Extra Productivity

Optional mechanical or hydraulic thumbs allow you to easily pick up a range of materials from large tree limbs to concrete chunks or rocks.

WOODS

Backhoes

BH65 and BH75 Backhoes

Designed for hard-to-reach residential digging and clean up for subcompact and compact tractors.

Tractor PTO range: 15–40 hp

Models

BH65	78-inch
BH75	90-inch

- Maximum digging depths: 6.5 feet and 7.5 feet
- Bucket widths from 9 to 24 inches
- Curved boom offers better visibility and reaches over obstacles with little repositioning
- Sub-frame or 3-point hitch mounts are compatible with most loaders and undermount mowers
- Optional mechanical thumb available
- Two-year limited warranty covers your tractor

BH65 shown with optional thumb

BH65 and BH75 Backhoes

BH65 shown with optional thumb

2 pin positions offering more power or greater bucket rotation

BH90 shown with optional thumb

BH80-X and BH90-X Groundbreaker Backhoes

Designed to endure the most rigorous commercial operation and provide years of worry-free service.

Tractor PTO range: 20–70 hp

Model

BH80	96-inch
BH90	109-inch

- Maximum digging depths: 8 feet and 9 feet
- Bucket widths from 9 to 36 inches
- Durable, heavy-duty boom, dipper stick, and dual swing cylinders
- Sub-frame or 3-point hitch mounts are compatible with most loaders and undermount mowers
- Optional mechanical and hydraulic thumb available
- Two-year limited warranty covers your tractor
